We empower educators to help students succeed

Online PD

ATA professional learning provides members with on-demand access to resources designed to build capability, and improve support practices in areas such as literacy, numeracy, behaviour, disability, and learning and wellbeing.

ATA partners with education experts to deliver monthly live web events. Live events are recorded and uploaded to the ATA Professional Development library, available to members any time.

eTAPS

Effective Teacher Aide Practices for Schools (eTAPS) is a four-part professional learning program, exclusive to school members. Each module progressively builds the expertise of support staff through evidence-based practices that lead to positive student outcomes.

The annual Australian Teacher Aide of the Year awards provide schools with an opportunity to recognise the valuable contribution of teacher aides to student learning and wellbeing.

Awards

Standards

The Australian Professional Standards for teacher aides is a statement of what constitutes effective support practice, and enables educators to work collaboratively to develop expert teaching teams and improve outcomes for students.
